

**REMARKS**

This case has been carefully reviewed and analyzed in view of the Advisory Action dated 16 February 2006 and is supplemental to the Amendment After Final Action filed on 2 February 2006. Responsive to the objections made in the Advisory Action, the Specification has been Amended to be consistent with the previously submitted corrected formal drawing.

In the Official Action, the Examiner objected to the Specification due to several informalities therein. The Examiner kindly noted inconsistencies in the description relative to the now corrected drawings of Figs. 5B and 5C. Accordingly, the Specification has been amended to correct those informalities kindly noted by the Examiner.

It is believed that this Amendment in combination with the Amendment After Final Action filed on 2 February 2006 now places the subject Patent Application in condition for allowance, and such action is respectfully requested.

Respectfully submitted,
